AIRWAVESMUSIC

WHO WE ARE:

THE AIRWAVES DIFFERENCE:

We are Airwaves Music, and we are not your stereotypical DJ company...

Since we began our collective of DJs in 2007, we have had the deep privilege of witnessing and facilitating over 3000 celebrations, from weddings to school dances, corporate parties and public events.

Originally based in Kelowna, we have organically expanded as DJs have moved and settled in other regions including the Lower Mainland, Vancouver Island, Calgary, Winnipeg and Toronto! Our team of over 30 diverse and experienced DJs are supported by a phenomenal group of event specialists who help to make sure no detail of your plans is missed!

Our passion is to create a seamless soundtrack throughout your event, curating every tune to fit your vibe perfectly. We do this through our thorough pre-event planning process, where we take guidance from you about your tastes and expectations, and having the flexibility and expertise on the day-of to play the right music at the right moment to get you and your guests in the perfect mood to have an amazing time and make lasting memories!

Our commitment to you is that your event will be outrageously fun and completely stress-free for you. The best part is, when you work with us, you can let the expert take care of your music and sound so that you can show up, be present and enjoy the party!

OUR CUSTOMERS:

★★★★★ 5.0 ✓

Profession and personal experience!

Airwaves was fantastic, from our coordinator to our DJ Chris, the whole experience was easy and the result was fantastic. The day went smooth and they worked independently with the venue to set up and coordinate timings, etc. Chris played great music - some from our list and some just reading the room. Our guests loved it and it all felt personal. Couldn't have asked for a better experience other than the party had to stop! Thanks again Airwaves team.

Awesome company

We hired Airwaves as we wanted an easy and stress free music option. I had worked with the company as a meetings and events manager through my work, so I knew their reputation was great. We also really liked that they have backup emergency DJ's and backup equipment on standby in case your DJ has an emergency or can't make it, or a piece of their equipment breaks. We booked them and almost immediately had a call with Danice so she could learn more about us and the type of music we were into. Then Maddison took over and she was super responsive and always reaching out to check in on everything. Closer to the date we were assigned DJ Owen, who we also had a call with to go over the timeline and styles. The day came and everything was amazing! DJ Owen set up for our ceremony, and then moved his set-up to the reception area, which was about 50 yards away. He even came up with a music game to play to call tables up, which kept guests invested and engaged. All in all the music was perfect and DJ Owen was awesome to work with! We couldn't recommend Airwaves enough! Thank you!

YOUR BOOKING INCLUDES:
